

Airing; Hockey Memories-Your Root Is A Path To The Future

The airing of Hockey Memories on Ball and Stick Television (B&S TV) will take place on 1st October, 2021. The weekly program is about memories shared by hockey people of themselves and of others as their memory permits them.

The significance of this feature is to help hockey lovers appreciate the journeys made so far in the past by men and women to the current state the game finds itself. Again, it will afford us the opportunity to recognize various contributions made by people and to search for hidden treasures that is to make Hockey in Ghana more unique than what it is today.

In 1974, Ghana's male team won the African Championship in the maiden Africa Hockey Nations Cup in Egypt, Cairo and qualified for the world cup in Kuala Lumpur Malaysia and in 1975, hockey became the first sport to take Ghana to a world cup event.

Memories shared, will then help us in understanding why the nation couldn't maintain the success it enjoyed in 1974 till this day and also why Hockey is not a known sport in Ghana after Hockey took her to a world cup event first, in 1975 before any sport did.
