

Open Letter To Dr. K.D Asante – Ghana Hockey Association President (2022-2026)

Dear Dr. K.D Asante,

It is with great pleasure to write to you once again, more importantly, to congratulate you for your re-election as the President of the game I love dearly. This 100% endorsement is a good sign that members within the hockey community are satisfied with your leadership from 2018 to 2022. We are optimistic that you will be more incredible going forward into your second term.

In an effort to being a citizen instead of a spectator; quoting the words of the President of the Republic, I will be drawing your attention on matters that are of great concern to me as an individual and to my organization, Ball and Stick. I am very certain that you are well aware of most if not all of the issues I want to reiterate; but since the sea continues to accept water from rivers and from the skies (rain), telling you something you already know is to reinforce attention.

In an ever rapidly changing world made possible by computers, internet, pandemics, wars etc, the Institution, Ghana Hockey Association without pressure from entities like Ball & Stick and individuals is expected to move out of the shadows of the past and embrace the new day of modern systems and structures.

GHA, over the years have had highly successful corporate executives to steer its affairs till date. These professionals, like yourself, understands and have a tight grasp on the price of failure due to acquired knowledge and corporate training. By default, thoughts that informs voting pattern of delegates at GHA congress is the faith and believe of corporate people carrying with them the strategies of growth and modern acceptable governance into a feeble system in order to overturn it odds into a great organization.

An unbending approach that will lead to remarkable success of Ghana Hockey Association in my candid opinion, is to pin corporate executives and make them duty-bound to do everything with corporate bias in order to convert and transform the GHA environment to depict the corporate world they function within.

In this episode, I will attempt to call Ghana Hockey Association, Ghana Hockey Limited. A corporate executive or group taking over the control of affairs of this limited liability entity will first forge a remarkable path to development i.e shape the fabric of character for greatness from early on. They do so by getting the right people on the bus, get the wrong people off the bus and put the right people in the right seats then drive the bus to the best destination by observing the road signs.

Dr. as my first letter after your retention, I will try not to disturb you with long essays as it will be the case of other episodes but kindly peruse the information below while you expect another episode next week Tuesday 8th November, 2022;

- Do you know the right people you need to move GHF forward?
- Do you have a strong and well-conditioned bus to carry all the right people?
- Do you have the final destination in mind?
- Are you prepared and willing to observe all the road signs?

From weakness and strength, I will be here to give you a hand just because my organization and I have and continue to sacrifice for this sport, and your success will mean a great gain for our invested efforts. In fact, we cannot risk watching or keeping mute for you to fail. Of course there will always be skeptics but we are here to prove them wrong.

One thing you must know about Ball and Stick is that; We are **proactive** and not **reactive**. You can count on us for the success of your second term.

I look forward to working on new ideas, projects and events with you.

Till you hear from me again next week, enjoy the goodness of God.

Best regards

Kojo Lumour Ameye / Ball and Stick
